## U.F.A. & U.F.W.A. ANNUAL CONVENTION

The Annual Convention of the Battle River U.F.A. and U.F.W.A. constituency Association, is to be held at Wainwright, on Monday and Tuesday, June 23rd - 24th, 1930. This is somewhat earlier than usual, owing to the Federal Election being held this summer, and it is therefore necessary to nominate a candidate to contest same on our interests.

The Hon. Irene Paribby, and Alfred Speakman, M.P., have been invited as speakers, also the U.F.A. M.L.A.'s in the Constituency, including the Hon. R. G. Reid. H. E. Spencer, M.P. will give his annual report of the session at Ottawa.

A picnic will be held the first afternoon and evening, in the Buffalo Park, speakers will be in attendance, and games arranged, this feature was a great success last year.

Delegates are requested to register at the Convention Hall on Monday morning, June 23rd, from 10 a.m. to 12 p.m.

D. East, Secretary.

### DON'T WASTE YOUR TAXES

The weed-inspector is paid from your taxes to locate weeds and help to eradicate and control the same. Yet it has been brought to our attention that many people deliberately try to hide their noxious weeds from the inspector and then complement themselves if they are successful. This is really a parallel example to the small boy who feels proud of the fact that he "got by" without studying his lessons, whereas in the course of time he finds that he is the loser.

Weed inspection is a service that you pay for. Use the inspectors! Find out what weeds you have and the best methods of eradication and control. Good grounds for complaint against the weed inspector is where you do not see him during the year. Let's get together, folks, and down the weeds.

P. D. Huxley, Field Supervisor, Wainwright.

### MAY REPORT OF METROPOLITAN SCHOOL

Grade IX—Elvie Owen, 73; Francis Johnson 70, Merlyn Pendleton 64, Grade VIII—Alice Owen 79, Elsie Owen 70.

Grade VI—Leonard Owen 66.

Grade V—Madge Burrows 84, Lloyd Cullum 68.

Grade III—Audrey Christenson 74, Margaret Holcroft 72.

Grade I—Mary Onyschuck, Soren Pederson, Jens Pederson.

Teacher: M. Staples.

### KIEFER'S THEATRE OPENS

ALL TALKIE SHOW  
Wednesday night Kiefer's Theatre presented its first all talkie show with "Officer O'Brien" an eight reel attraction which showed very distinct on the screen. The sound reproduction equipment worked most satisfactory, both speech and music being very clear and natural. While the play probably did not appeal to all of the ladies, the plot and acting was very good. Next week "Paris Bound" a different type of story, from the American stage play of the same name, a story of a society marriage, with Ann Harding, as leading lady will be presented.

Owing to the very heavy rain Tuesday night the Conservative Federal convention called for Wednesday at Wainwright, had to be postponed for two weeks. Phone messages from outlying parts of the constituency stated that it was impossible to make the trip at the present time. We understand that several names are being mentioned as candidates and that a large crowd would have been in attendance had it not been for the rain.

Pete Harver, has a gang of men improving the road south of Irma. This road has been in very bad shape for some time, but we understand that it is the intention of the Municipality to have it gravelled as soon as the grade has been widened and graded. Several farmers have agreed to donate teams and men to assist with the graveling.

The Irma Ladies Aid intend holding a Lawn Social at the home of Mr. and Mrs. M. T. Knudson, Coal Springs district, next Wednesday afternoon at 4 p.m.

## LIB. CANDIDATE SPOKE AT IRMA

Last Friday night, Mr. S. R. Bowerman, the Liberal candidate for the Wainwright constituency held a meeting in Kieffer's Theatre at Irma, when a very representative audience were in attendance. About nine p.m. Mr. Bowerman called the meeting to order and asked Mr. R. D. Smallwood to act as chairman. The chairman then called on Mr. Bowerman, who gave an outline of some of the reforms he would endeavor to secure if elected. Mr. Bowerman believed that all roadwork should be handled under a commission, he also explained that he was in favor of reducing the automobile tax and place all car licenses on a flat basis regardless of size. Mention was made of the School Act but no definite plan for improving it was suggested. Mr. Bowerman stated that he was unable to define the difference between an independent candidate and a straight party man, that the present independent candidate had always voted and worked as a Liberal except when no Liberal candidate had been nominated. Mr. Bowerman also thought the present sitting member, had not secured enough financial assistance for his constituency. Following Mr. Bowerman, Mrs. Bowerman gave a very interesting talk when she appealed to the ladies present to see that every lady should use the franchise that had been given to them by the former Liberal government.

Following Mrs. Bowerman, Mr. Doherty, secretary of the Wainwright Liberal association told of the high opinion he held of the Liberal candidate, also stressing the importance of having a man of Mr. Bowerman's calibre in the government to help administer the natural resources, which the Liberal government at Ottawa had given the province. Following the other speakers Mr. Smallwood stated that while he did not belong to the same party as Mr. Bowerman but he believed Mr. Bowerman was the best man the Liberals could have selected to represent them. Mr. Smallwood gave the U.F.A. government considerable criticism for not living up to the planks in their platform in the 1921 election also for the way the widows allowance act had been passed. The meeting closed by singing the National Anthem.

## MAJOR PITMAN HELD MEETING

Major Pitman, independent candidate, held a meeting in Irma, on Thursday evening. There were about fifty present to hear the speakers. F. W. Watkinson acted as chairman. Mr. Pitman was supported by Mrs. Freeman of Chauvin, and Mr. Strong of Chauvin. Mrs. Freeman spoke of the women's vote, the franchise being given them by the late provincial Liberal government. She also spoke of other matters of interest to the audience.

Mr. Strong brought out very many good characteristics of the candidate and recommended him as highly fitted for the position he sought as member for Wainwright constituency. Mr. Pitman scored the extravagance of the Brownlee government during the past nine years they have been in office, and tried to point out that the Wainwright constituency had been neglected by the present member.

### POLITICAL MEETINGS

Major E. A. Pitman, independent candidate for Wainwright constituency, will hold meetings at the following places:  
Ristone, Saturday, June 14th.  
Wainwright, Monday, June 16th.  
Greenshields, Tuesday, June 17th.

### HOME CANNING BOOKLET

As the Bank of Montreal has distributed practically all their home canning booklet, those wishing copies should call at the bank soon.

Mr. W. Masson, has been appointed to register or repair the voters list for the coming federal election, for Township 45-9-4.

## Public Meetings at Which J. R. Love, Will Speak

The General Public is invited to attend the following meetings at which the U.F.A. Candidate, Mr. J. R. Love, will speak:

Chauvin, Thursday, June 12th, at 2.30 p.m.  
Wainwright, Thursday, June 12th, at 8 p.m.  
Roseberry, Friday, June 13th, at 8 p.m.  
Jarrow, Saturday, June 14th, at 8 p.m.  
Orange Hell, (Gilt Edge) Mon., June 16th at 3 p.m.  
Irma, Monday, June 16th, at 8 p.m.  
Saddle Hill, Tuesday, June 17th at 3.30 p.m.  
Edgerton, Tuesday, June 17th, at 8 p.m.  
Ristone, Wednesday, June 18th at 8 p.m.  
Premier Brownlee will address the Chauvin and Wainwright meetings.  
U. F. A. Radio broadcasts will be given on Tuesdays, June 10th and 17th at 8.30 p.m.

# Tea is a minor expense why not drink the finest

## The Canadian Pacific Bubble

The following extract from an editorial in "London Truth," published, September 1, 1931, 49 years ago, is amusing.

The Canadian Pacific Railroad Company has begun, I see, to launch its bonds. A group of Montreal and New York bankers have undertaken to float ten million dollars worth of the company's land grant bonds, and the Bank of Montreal, with its usual courage, has taken one-fourth of the entire loan. This announcement looks as if the Canadians were going to raise the necessary capital on the other side of the water, but I have a shrewd suspicion that they have no real intention of doing anything of the kind. The New Yorkers are keen enough gamblers, and reckless enough at times I admit, and yet it is impossible to believe that they are such fools as to put their money into this mad project. I would as soon credit them with a willingness to subscribe hard cash in support of a scheme for the utilization of icebergs. The Canadian Pacific Railway will run, if it is ever finished, through a country frost bound for seven or eight months in the year, and will connect with the western part of the Dominion a province which embraces about as forbidding a country as any on the face of the earth. British Columbia, they say, has forced on the execution of this part of the contract under which they become incorporated with the Dominion, and believe that prosperity will come to them when the line is made. This is a delusion on their part. British Columbia is a barren, cold, mountain country that is not worth keeping. It would never have been inhabited at all, unless by trappers of the Hudson's Bay Company, had the "gold fever" not taken a party of mining adventurers there, and even since that fever died down, the place has been going from bad to worse. Fifty railroads would not galvanize it into prosperity.

Nevertheless, the Canadian Government has fairly launched into this project and I have no doubt the English public will soon be asked to further it with their cash. The parade of selling bonds in New York and Montreal is the new way of doing business that "syndicates" bankers and loan contractors have adopted in order that it may seem that they have faith in the schemes they favour. I doubt if ten millions of dollars of ready cash could be found in all of Canada for this or any other work of utility at a pinch, but the Canadians are not such idiots as to part with one dollar of their own if they can borrow their neighbors'. The Canadians spend money and we provide it. That has been the arrangement hitherto, and it has worked out splendidly—for the Canadians—too well for them to try any other scheme with the Canadian Pacific, which they must know is never likely to pay a single red cent of interest on the money that may be sunk in it. A friend of mine told me—and he knew what he was talking about—that he did not believe the much touted Manitoba settlement would hold out many years. The people who have gone there cannot stand the coldness of the winters, and cattle are dying in numbers that would rather startle the intending settler if he knew; and those who are not killed outright, are often maimed for life by frost-bites. His street nuisances kill people with malaria, or drive them mad with plagues of insects; and to keep themselves alive during the long winter they have to imitate the habits of the Esquimaux. Those who want to know what it is like should read the not-yet-forgotten books of Colonel Butler. His "Great Lone Land" is the land of which the Canadian Pacific Railway has yet five and twenty million acres to sell and it is through a death-dealing region of this kind that the new railway is to run.

As the bonds "secured" on this land of horrors are guaranteed by the Dominion Government are sure to be offered in this market by the "Bankers" and others forming the company, I think a word or two on Canadian finances in general would be in season.

Canada is one of the most over-rated Colonies we have, but it is heartily "loyal" and makes the loyalty pay. Its astute inhabitants know well how to work on John Bull's susceptibilities, and I have seen nothing finer in the way of advertising than poor Lord Lorne's "Tour" now in progress. He has gone to the North, but just at the right time, and the rushing accounts we are receiving from the "Esquimaux" who are accompanying him are admirably adapted to create a belief that the true land of promise is to be found there at last. With such soil to till, and among such Queen worshippers, the distressed British farmer would be in bliss. Of course they who choose can believe all that. For my part I know of only one province in the whole Dominion—that of Ontario. "It is the only province," as a shrewd land jobber said to me once, "where you can lend money on land with any hope of ever seeing your own again." As for the country as a whole it is poor and it is crushed with debt. The Supreme Government owes about thirty-five million pounds altogether, and every province has its separate debt, as also has almost every collection of shanties calling itself a "city." The Province and the City of Quebec are both notoriously bankrupt, and the latter was obliged to go to Paris with its last loan, probably because nobody would lend it here. Last year the country had the benefit of a good crop and a good market here, so that it did a little better, but generally it has had work to make both ends meet, and often could not. Nearly every year it comes for a new loan or two, and once it is fairly committed to making this new railway I see nothing before it but bankruptcy. While the money is being spent all will go well enough, perhaps, but in the end the Dominion will have to go into liquidation. It amazes me that its stocks stand where they do as things are, but if people took the trouble to look beneath the surface, prices would be very different. One of these days when the load gets too heavy, Ontario is best certain to go over to the States into which it is falling, and where its prettiest trade outlet is. When the day comes the "Dominion" will disappear. With the contingency ahead and with the prospect of another fifty million pounds, or so to be added to the debt, can it be said that "Canadian Unencumbered Four Per Cent" are worth their present price? This "Dominion" is in about a "fraud" all through and is destined to burst up like any other fraud. Then, and not, I suppose, till then, the British taxpayer will ask why we guaranteed so much of this sham government debt.

### Avalanche Easily Started

Even a whisper has been known to start an avalanche on the Alpine passes. One disastrous avalanche was attributed to the tinkle of the sleigh bells, and the use of bells has been prohibited on that particular mountain.

Madras, India, is to have a suburban electrified railway service.

### Moved Town Hall

To make more room for traffic, the 150-year-old town hall of Randers, in Jutland, was recently moved two yards on trolleys. The building is 64 feet long, 21 feet wide, and 40 feet high. It was moved so smoothly that the clock in the tower did not stop.

People in Germany ate nearly 2,000,000 American sausages last year.

# Too Much

Many people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. Correct it with an alkali. The quick, harmless and efficient way, is Phillips' Milk of Magnesia. It has remained for 50 years the standard with physicians. One spoonful in water neutralizes many times its volume in stomach acid. And at once, the symptoms disappear in five minutes.

You will never use crude methods when you know this better method. And you will never suffer from excess acid when you prove out this easy relief. Please do that—for your own sake—now. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acid. Each bottle contains full directions, any drugstore.

## Honor British Dead

Soldiers Who Lie In Washington Cemetery Remembered On Memorial Day

While the United States on May 30, Memorial Day, remembered its soldier dead and pilgrimages to cemeteries throughout the country, the British and Canadian soldiers who lie in Arlington Memorial cemetery, at Washington, were not forgotten.

In the bright sunshine a small group from the Canadian Legation and the British Embassy moved through the groves of Arlington, laying wreaths on the graves of 12.

Keith F. Crowther, from the Legation, was escorted by Sergeant Lamont, of the Royal Canadian Mounted Police.

## AGONY OF NEURITIS

A Story Of Intense Suffering and Relief

"Do I recommend Dr. Williams' Pink Pills? 'You may believe I do' says Mr. John H. Jamieson, of Wallburg, Ontario. 'For five years I suffered day and night from neuritis. The agony was terrible. I lost control of my arm and shoulder and my hand became shriveled. Nothing helped me till I began taking Dr. Williams' Pink Pills. Ever then the improvement was slow and I took ten boxes before I was on the way to recovery. After that, though, relief was rapid. My hand gradually filled out, the pain left me and I could sleep in peace. That was two years ago and I have not had a twinge of the trouble since.'"

Sufferers from neuritis, neuralgia, or rheumatism should try the common-sense method of banishing these troubles by enriching the blood and strengthening the nerves with Dr. Williams' Pink Pills. These pills are sold by all medicine dealers or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## Helping the Empire

Wise "Old Country" Housewives Buy Canadian Produce

"Use shopkeepers' stock of Canadian produce, good housewives buy it" is the maxim underlying the Empire Marketing Board's latest Canadian poster frame set now appearing on the Board's special frames in London and nearly five hundred cities and towns in the "Old Country."

The set consists of five posters. A Canadian apple orchard in flower and a ship for Canada under construction in a United Kingdom shipyard are the subjects of the first and fifth. In the centre are maps of the United Kingdom and Canada drawn to scale. To right and left are smaller posters showing barrels of Canadian apples being unloaded at the docks and a customer inspecting a display of Canadian food products at a grocer's shop.

The posters point out how bigger purchases of Canadian produce will result in bigger orders for Home factories. "Every time you fly Empire produce you help the Empire to buy the goods you make at home," is the message of the whole set.

Persian Balm creates and preserves lovely youthful complexions. Tones and stimulates the skin. Fragrant as a flower. Cures morning dew. Swiftly absorbed by the tissues, making the skin wonderfully soft-textured. Unrivalled as an aid to feminine elegance. Delightful to use. Imparts additional charm to the daintiest of women. Persian Balm is the one, toilet requisite for the exacting woman. Fearless as a beautifier.

## Order Weed Burner

Machine Shipped To Morocco By Alberta Company

A stubble and weed burner made by the Alberta Foundry and Machine Co., has been shipped to Morocco, where it will be used to destroy the eggs of the wild locusts. The order was received from the Comarex Compagnie Franco-Marocaine d'Exportation de Casablanca. The company heard of the machine through Mr. Stark, an agent of the British Foreign Office, at Casablanca, who cabled the company at Medicine Hat to send pictures and a description of the burner. These were sent and shortly afterwards an order was received from the French consul.

## Would Limit Sale Of Poisons

To minimize the number of deaths by poisoning, the British Government proposes to establish a Poisons Board which will permit only a limited number of chemists to vend poison. These agents will be instructed not only to ascertain the name and address of the purchaser, but also to verify it before completing the transaction.

Another phase of much-needed national adjustment is disclosed by the fact that there are over 26,000 automobiles and less than 10,000 hospital beds in this country.

## Use Minard's for Rheumatism.

W. N. U. 1841

## DO YOU SUFFER WITH HEADACHE?

So easy to get quick relief and prevent an attack in the future. Avoid bromides and dope. They relieve quickly but affect the heart and are very dangerous. They are depressing and only give temporary relief, the cause of the headache still remains within. The sane and harmless way. First correct the cause, sweeten the sour and acid stomach, relieve the intestinal constipation, gently stimulate the liver, start the bile flowing and the bowels pass off the waste matter which causes your headache. Try Carter's Little Liver Pills. Druggists 25c red pkg.

## Pleased With Extension

Edmonton Coal Men Delighted With Decision On Special Rates

Coal men at Edmonton are delighted with the announcement that the Federal Government has granted an extension of the period of special freight rates on coal shipments from Alberta to Ontario. Official word of the extension was given in a telegram received by Howard Stutchbury, Alberta Trade Commissioner, from E. J. Garland, M.P., who has been working on the matter.

Under the three-year period for the special rates, the term would have ended this year as it had been in effect from December 15 to July 15 since 1928. The extension now granted means that shippers will be assured of the special rates being in effect from December 15 to July 15 of 1931.

Mr. Stutchbury pointed out that the provincial government, the Canadian Fuel Association and other bodies have been pressing for the extension for some time. It was felt that this should be granted on this giving adequate time for the cost figures of the three-year period to be thoroughly studied.

## FAINT, DIZZY SPELLS

Had To Sleep Propped Up In Bed

Mrs. Norman Bishop, Salisbury, N.B., writes: "I was troubled with faint, dizzy spells and when I would lie down I would suffer terribly with smothering spells. I got so bad I had to sleep propped up in bed. 'My doctor said it was my heart and nerves, and that I needed a good medicine.' I was advised to take

and I had not taken one box when I could lie down and sleep like a child. Price, 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

## Air Travellers Insured

New Line Opened Up By Popularity Of Airship

The increase in the popularity of airship travel has opened up a new line of insurance. Several passengers on the Graf Zeppelin's present flight to South America insured themselves for the round trip on the travel ticket system.

A passenger on the R-100 has been insured for the duration of the two trips across the Atlantic. His premium is two pounds. As the westward and the eastward trips combined are not expected to consume more than six days' time, this rate is equivalent to a premium of about 120 per cent. of the policy amount on the basis of a year.

A Remedy For Earache.—To have the earache is to endure torture. The ear is a delicate organ and few care to deal with it, considering it work for a doctor. Dr. Thomas' Electric Oil offers a simple remedy. A few drops upon a piece of lint or medicated cotton and placed in the ear do much in relieving pain.

## Leaving Britain For First Time

The first steam locomotive, Stephenson's "Rocket," will be sent from London to the Chicago "Century of Progress" Exposition, Arthur Henderson, Foreign Secretary of Britain, has officially advised U.S. Ambassador Charles G. Dawes. It was understood this will be the first time the "Rocket" ever left Britain.

## Minard's for Falling Hair.

Chimney-sweeps are remarkably free from colds, observes a doctor. But they're used to the flue.

Insects are costly, their control is one of the greatest problems with which any country is confronted.

Greece's currant crop last year weighed 250,000,000 pounds.

## Britain's New Flying Operating Theatre

Machine Just Completed Is Equipped Up-To-Date

For use in the outpost of the British Empire, a remarkable new flying operating theatre has just been completed. In order that a patient may be lifted gently, the sides of the cabin are hinged, so that they fall completely open. There are racks for surgical appliances of all sorts, and room for two attendant nurses as well as a doctor. The fuselage is specially sprung in order that taking off and landing shall not unduly disturb the patient. An ice chest, fresh-water tanks, and a small electric stove for heating water form part of the equipment. The machine is fitted with two Napier Lion engines, giving a total of nearly 1,500 h.p., and the aerial operating room can be maintained in the air with only one engine working with very little reduction of speed. Operations would be carried out in mid-air only in the most urgent cases; but there have been instances where the lives of settlers, soldiers, and natives in remote outposts could have been saved if an immediate operation followed by skilled nursing, could have been assured. The new aeroplane will meet this need.

## Recipes For This Week

(By Betty Barclay)

### CHOCOLATE PIE

- 2 squares bitter chocolate.
- ¾ cup sugar.
- 1 cup flour.
- 1 teaspoon salt.
- 1 cup boiling water.
- 1 cup evaporated milk.
- 3 egg yolks.
- 1 tablespoon butter.
- ½ teaspoon vanilla.
- Baked pastry shell.

Melt chocolate over hot water. Add sugar that has been thoroughly mixed with flour and salt. Blend well. Add boiling water and milk. Cook in a double boiler 25 minutes, stirring occasionally. Pour chocolate mixture gradually over well-beaten egg yolks, beating vigorously to prevent curdling. Return to double boiler and cook 2 minutes longer. Add butter and flavoring, cool slightly and pour into cold baked pastry shell. Cover with meringue and brown to the preferred color in a slow oven.

### CARROT SURPRISE

- ½ junket tablet.
- ½ teaspoon cold water.
- ½ cup carrot puree.
- 1 cup milk.

Salt. Crush junket tablet and dissolve in cold water. Prepare the carrot puree by rubbing cooked carrot through a sieve. Add milk and season with salt. Warm until lukewarm—not hot—remove from stove and add dissolved junket tablet. Turn into individual dishes and let stand in warm room until firm—about ten minutes. Serve warm or chilled as preferred.

Among certain tribes of Africa, brides may be purchased on the installment plan.

## WRIGLEY'S

WRIGLEY'S is good company on any trip.

It's delicious flavor adds zest and enjoyment. The sugar supplies pep and energy when the day seems long.

In short it's good and good for you.

## A Growing Industry

Demand For Bulbs Grows On Vancouver Island Exceeds Supply

"Bulb growing on Vancouver Island is still an infant industry," said Mr. T. B. Dempster, who is probably the largest grower of bulbs in British Columbia, as well as the pioneer grower of bulbs on the Island for export, having been established for twenty-one years. "The possibilities for the growth of this industry are enormous. We could do a greater volume of business than we are doing at present if we could supply the demand, and occasionally find ourselves in the position where we must buy bulbs for our own use."

No Rest With Asthma. Asthma usually attacks at night, the one time when rest is needed most. Hence the loss of strength, the nervous debility, the loss of flesh and other evils which must be expected unless relief is secured. Fortunately relief is possible. Dr. J. D. Kellogg's Asthma Remedy has proved its merits through years of service. A trial will surely convince you.

Out of some 50,000 books published in the seventeenth century, not more than 50 are generally known to people of the twentieth century.

EVERY BIRD LOVER should have this new revised edition of Brock's Book on Birds—replete with 342 pages of valuable information on the care and feeding of cage birds; also contained 60 percent of practical advice on the treatment of bird diseases. The regular price is 25 cents, but to readers of this paper who enclose 10 cents, addressed to the WINNIPEG NEWSPAPER DIVISION, 400 McDONALD AVENUE, EAST, WINNIPEG, a copy of Brock's Book on Birds will be sent along with a generous sample of Brock's Bird Seed—a correctly balanced diet prepared from the finest seeds, together with a real treat for your bird, a sample of Brock's Bird Treat, a tonic that brightens the plumage and strengthens the song.

Every Bird Lover Should Have This Book

## Don't Let Foods Stale

Foods that ordinarily stale quickly will stay fresh and tempting a surprisingly long time if you cover them with Para-Sani Heavy Waxed Paper. Your grocer, druggist or stationer has Para-Sani in the handy, sanitary knife-edged carton. For those who prefer a lighter paper put up in sheet form ask for Appleford's "Centre Pull" Packs.

## Prairie Provinces Are Well Equipped With Facilities For Marketing Purposes

Few large surplus-producing agricultural regions are as well equipped with facilities for the distribution and marketing of agricultural products as the Prairie Provinces of Western Canada. Two transcontinental railways with thousands of miles of branch lines tap every part of the producing territory of this region. On the west these railways deliver prairie products to the ports of Vancouver and Prince Rupert. To the east the products are either carried by all rail routes to the Atlantic seaboard or St. Lawrence River ports or, as in the case of grain, delivered at the head of the Great Lakes. An additional outlet for products from this region is being provided by way of the Hudson's Bay. A railway extending northeastward from the heart of the producing territory now finds an outlet through Churchill on the Bay, where facilities are being provided for handling grain and other products by a new short route to the markets of the British Isles and Europe. Radiating from the numerous small towns and cities on these lines of railway, run many thousands of miles of good roads for the delivery of farm products from the adjoining agricultural region.

Western Canada is a surplus-producing region. The major portion of its products is marketed elsewhere in Canada, or in the markets of the world. There are, however, satisfactory local markets in the towns and cities of the prairies for most of the perishable products produced, such as fruits and vegetables. A large quantity of poultry and dairy products is also produced for home consumption. The surplus of these products, however, finds its way to more distant markets. In the larger centres where railway terminals, facilities are provided for the handling of livestock, grain and other products.

Outstanding progress has been made by the farmers of the Canadian west in the matter of co-operative marketing. Probably no group of farmers anywhere has advanced more in the matter of such help in marketing.

The Wheat Pool of Western Canada is the outstanding example of this development. More than fifty per cent of the grain of Western Canada is handled through this farmer-owned organization. About \$30,000,000 have been invested by producers in their own grain-handling facilities which consist of approximately fifteen hundred country elevators and a dozen or more large terminals at Great Lakes and Pacific Coast ports.

Another outstanding farmer-owned grain-marketing association is the United Grain Growers, operating more than five hundred country elevators and engaging in various other phases of business on behalf of producers. A large part of the livestock in Western Canada is marketed through the Provincial Livestock Pools which, together with similar organizations in the eastern provinces, form a national livestock marketing agency. Similarly in the marketing of wool, a Dominion-wide organization with a western branch office at Regina is handling in the neighbourhood of four million pounds annually, which represents more than one third of the Canadian crop. So also in the marketing of seed grain, poultry and dairy products and in many other lines, extensive facilities have been provided by farmers themselves for the handling of their products. Many of the co-operative marketing organizations have been in existence for a period of ten to twenty years and have thus proven their worth. In competition with these farmer-owned and controlled organizations there is, of course, a well developed system of marketing operated by private capital.

Queen Elizabeth, of England, was presented with a wrist watch on New Year's Day, 1922. It was a ruby and diamond studded affair.

"Your tooth aches? If I were you I would let it out."  
"So would I if I were you!"  
Gutierrez, Madrid.

### Trek Is Satisfactory

March. Of Reindeer From Alaska Proceeding According To Plans

News of the progress made by 3,200 reindeer on their long march from Alaska to the Mackenzie district in Canada indicates that the plans of the Dominion authorities for transfer of the herd are proving adequate. A. E. Forsid, of the Interior Department, who accompanied the excursion in its first weeks, has returned to Ottawa with word that all is going satisfactorily.

A detail of the equipment of the expedition is the transport department, which numbers more than 300 stags. They serve as motive power for the fifty sleds on which the camp outfit is carried. Only one steer is hitched to a sled, but an idea of the difficulties of the trip may be obtained from the fact that two stags go ahead of each sled to break the trail.

Mr. Forsid does not report any signs of nostalgia among the emigrants. So long as feed is sufficient and climate congenial they do not care under what flag they dwell.

(By Anabelle Werthington).

A stunning outfit for the deb and the little sub-deb who follows closely in the styles of her debutante sister. Style No. 3282 is a rayon printed crepe that would appeal to any smart miss in its attractive, vivid red tones. The shoulder and hipline bows are of deep emphasizing its diagonal line. The gathered tiers of skirt are decidedly youthful and ripple softly each time wearer moves.

This versatile model comes in sizes 12, 14, 16, 18 and 20 years.

It is dainty for afternoons in chiffon in tomato red shade, or soft faille silk crepe in Independence blue.

Navy blue wool crepe with vivid red bows of faille silk crepe is neat and girlish for classroom.

Wool challis prints, feather-weight self-checked tweed, crepe de chine, crepe satin, and canton crepe appropriate.

Pattern price 25 cents. Be sure to fill in size of pattern. Address Pattern Department.

Women in Konia, Turkey, are now engaged in peddling milk from door to door.

### Beating Father Time

Two-Crop-a-Year System Speeds Up Research Work

The success which has attended the efforts of L. H. Newman, Dominion Cerealist, and his staff at the Central Experimental Farm of the Dominion Department of Agriculture in growing two crops of grain a year, one in the field and the other in the cereal greenhouse, is a fine example of putting one over on Father Time. The most important work of the Cereal Division is the development of new varieties of cereal and other plants particularly adapted to Canadian conditions and demands. In the cereal greenhouse grain harvested from field test plots in the fall is planted again within a month or so, and the work of research and development is carried forward another crop year during the one calendar year. This means in practical result that the research work which usually took from eight to ten years to carry out in connection with a specific hybrid development under the old system of field test plots can now be done in from four to five years under the new two-crop-a-year system. The development is one of major significance to Canada's future as a producer of cereal and forage crops.

### Poultry Grading a Success

Record Of Performance Has Resulted In Better Birds

Ten years in operation of the Canadian Record of Performance for Poultry under the supervision of the Dominion Live Stock Branch has resulted in 51,945 banded birds having qualified for R.O.P. certificates, having laid at least 150 eggs during the record year, while an additional 17,907 hens lay 225 eggs or more each during the record year. The record for R.O.P. advanced certificates. Record of Performance is a poultry grading medium open to commercial and farm flocks throughout Canada through which the real production qualities of hens is determined and established in tangible form.

### Menace To Farm Animals

Horsetail Weed Usually Found In Poorly Drained Fields

Horsetail, a weed familiar throughout Canada, is a menace to horses and other farm animals because of its poisonous properties. The Botanist of the Dominion Department of Agriculture, calling attention to the harmful effect of this weed on horses, cattle, sheep and sometimes pigs, points out that the presence of the weed in fields is usually an indication of the need for drainage. In cases where the weed is found steps should be taken for its complete eradication through proper drainage and adequate soil cleaning by a thorough system of crop rotation.

Commercial Orchards in B.C. In British Columbia commercial fruit-growing is of comparatively recent origin; but the development of commercial orcharding has been very rapid, especially during the last ten years. The first apple trees were planted about 1850, but not until after the completion of the Canadian Pacific Railway in 1886 were there many trees planted for commercial purposes.

"Theobromos," the scientific name of cocoa, means "food of the gods."

### C.N.R. WESTERN REGION OFFICIALS PROMOTED

A. C. EGAN

T. J. GRACEY

Announcement has been made of the promotion of A. C. Egan, Winnipeg, comptroller, Canadian National Railway, western region, to assistant comptroller of disbursements for the system, with headquarters at Montreal. T. J. Gracey, Winnipeg, assistant comptroller, is promoted to regional auditor. The appointments are effective, June 1.

Mr. Egan, who was born in Winnipeg, 1883, entered railway service in 1901. With the exception from 1919 to 1923, when he served the railway in Toronto, as assistant to comptroller and general auditor, Mr. Egan had made Winnipeg his headquarters, serving in such capacities as accountant, chief travelling auditor, auditor of agencies, and regional comptroller; the latter he now relinquishes to take on more responsible duties at general headquarters in Montreal.

Mr. Gracey, who was born in Kingston, 1889, came to Winnipeg, May, 1923. He entered railway service, in 1906, at North Bay with the T. & N. O. Railway, serving that company in various positions until 1920, when he became assistant auditor of disbursements, at Toronto, for the Canadian Northern Railway. In 1923, Mr. Gracey was transferred to Winnipeg to his present position, and now becomes regional auditor.

### NEW PRESIDENT

Dr. Chas. Camsell, Deputy Minister of Mines, at Ottawa, who has been elected president of the Royal Society of Canada for 1930-31.

### How Cologne Was Named

Is But Slightly Changed Form Of Latin Word Colonia

A recent oral questionnaire addressed to 25 persons at random revealed a hazy idea about the City of Cologne. The question was: "How did the German city of Cologne on the Rhine get its name?" Several frankly admitted that they had not the faintest idea. Nearly all were sure that it had something to do with the perfume called eau de Cologne. One was quite sure she had read that the Rhine flowed over some fragrant rocks or something above the city and that eau de Cologne was bottled Rhine river water. They were all wrong. Cologne (Köln, in German), is nothing but a slightly changed form of the Latin word colonia. Its full name was Colonia Agrippina. This, early city of the Ubi, a people mentioned by Julius Caesar, was changed to a colony, and named after Agrippina, who was in camp with her husband there for several years. This Agrippina was the granddaughter of the famous Agrippa, the admiral of Augustus. One of her brothers was the Emperor Caligula, and her son was the Emperor Nero. The city is rich in Roman antiquities.

### Choice Of Two Methods

Molasses Can Be Given To Hens In Water Or Food

There are two methods of giving molasses to chickens. You can mix it at the rate of a pint of molasses to four quarts of water and give them this water to drink in usual quantities. Be sure to give a fresh supply daily after cleaning, drinking vessels carefully, as molasses will ferment if left in vessels for a few days, especially in warm rooms or temperatures. If preferred, you can use this molasses water for mixing your wet mash and they will get it in feed.

### World's Youngest Traveller

Only six weeks old, yet little baby Richards has spent four of those weeks in travelling 7,500 miles from India to the home of grandparents in London, England. The child's father and mother died within a few days of each other in the interior of India, and the baby was sent back to England.

## Canadians No Longer Have Idea That East and West Are Separate Communities

### Working To Music

Senegalese Negroes Have Novel Method Of Ensuring Manned Action

A common exercise among teachers who wish their pupils to "think" music is to allow them to sing part of a tune and then break off, picking up the tune at a certain point an instant later. Among the negroes of Senegal, however, this exercise has a practical use that is not at all musical. When a vessel has got on to a sandbank the way of getting it off again is by a large number of divers plunging into the water together and lifting it on their shoulders. Sometimes as many as five hundred are engaged on such a task. They swim round the vessel all singing together and at say, the eighth bar, they dive, mentally continuing the melody while under the water, then at the 12th bar they all push, or lift as the case may be, and at the 16th all rise to the surface again. By this means they have no need to hear the leader counting or beating, and none of their efforts are lost by any individual being before or after the others. To do this, however, they must have a strong sense of time and tune.

### Dodging Auto Test

British Scientists Think They Have Worked Out Plan

If you can do all of the things listed below you probably have a 50-50 chance of crossing Piccadilly Circus in London, England, or St. James Street, Montreal, without getting hit by an automobile.

Scientists of the British Industrial Health Research Board believe the tests which they have designed actually measure the factor of accident proneness. They ask you to:

Dot a series of small circles passing at an increasing speed. Follow the irregular movements of a mechanically controlled pointer.

Keep a green disc controlled by two handles above a white moving disc.

Keep the stylus with a ball on the end inside a small metal cup without touching the sides, the cup being moved in an irregular way.

Form a rectangle out of four pieces of differently shaped metal.

Fit strips of metal of varying length into a frame.

### French People Saving

Accounts In Banks Show Steady Increase Every Year

Despite all the crises France has passed through in recent years the people have not lost their traditional habits of economy. Statistics of savings banks accounts, for 1929, which have just been published show that 9,314,000 people have accounts in savings banks and that the total deposits, which every year show steady upward progress, last year totalled over \$890,000,000. Other statistics which have been published show that France has now the largest gold holdings per capita of any country in the world, beating even the United States. During the last year, the amount of savings in these popular banks increased 13 per cent.

### A Quick Thinker

Henderson's evening suit was rather old-fashioned. His figure was not one which showed clothes to advantage, either.

One evening, as he stood in the vestibule of a restaurant waiting for his wife, a tall, pompous man came up to him.

"I say, my man, are you the head waiter?" he droned.

What Henderson lacked in hearing he made up in quick thinking. Without hesitation he turned to the other. "No," he said, "but I heard him tell a young fellow today that he didn't want to see any more applicants for jobs."

### A Freak Fig Tree

Parasites may flourish right under the nose of the government, according to a discovery at Vicuña, California. A fig tree, about three feet high, was found growing out of the side of a palm tree in the courthouse grounds. Its roots drew sustenance from the mold in the niches of the palm and from the sap of the tree. The parasite recently blossomed with the other fig trees.

No product in the world has as great a turnover as chewing-gum.

Black, brown and cinnamon bears all belong to the same species.

Natural deposits of sand and gravel occur in all the provinces of Canada.

Of recent years a marked change has passed over the general conception of the relationship between the Eastern and Western moieties of the Dominion. Not so long ago the accepted idea was that the clay belt of Ontario marked a gulf between that province and the prairie and Pacific provinces as deep as that which separated the thirst-parched Dives from Lazarus, safe and happy in Abraham's bosom. To the West lay the granary of Canada while eastward lay the predatory industrialized districts which regarded the granary as their own particular happy hunting ground. That idea has vanished, never to return.

This century has brought no more remarkable change than the realization that Canada is not divided up and parcelled out into any such two antagonistic and antipathetic communities. The clay belt of Ontario is now regarded as a link not a barrier. The farms of the huge region north of Lake Superior will some day merge imperceptibly into the farm lands of Manitoba, Saskatchewan and Alberta, and the further North hinterland, right from the Maritime provinces Westward will be found the same Laurentian plateau that holds the immense mineral wealth of the Dominion. In the future, possibly earlier than expected, mining towns will spring up and with them the rapid development of the industries that are invariably and inseparably associated with urban settlement. Then will arrive the Day of Canada, a day when the Dominion will step forth a complete and fully rounded out natural unity.

That may be anticipating, but mining and lumbering are not the only industries where Manitoba is beginning to trespass on what were so long regarded as preserves of Ontario and the East. And the third unexpected and hitherto unexploited field of enterprise is probably the last that would have occurred to the residents of Older Canada. Who among them would have supposed that the Manitoba industry recording the greatest gain in recent years would be one never before associated with our immediate Western neighbor. Nothing else, indeed, than fishing.

In a recent editorial the St. Catharines Standard stated that during the past few years the inland fisheries production of Manitoba had increased over one hundred per cent, and that in 1929, the market value of the 33,000,000 pounds of fish caught for commercial purposes in Lakes Winnipeg, Manitoba and Winnipegosis, and other lakes in the province, aggregated \$2,634,000. The same article noted that a steady expansion had also taken place in the fish production of the other prairie provinces, though they did not equal the gain disclosed in the new Manitoba total.

Indications are, this article also declared, that the advance will continue in each of the three provinces for additional fishing waters are being opened each year as settlement advances and transportation facilities are extended. It seems reasonable to assume, also, that as settlement on Manitoba's Hudson Bay coast develops, sea fishing will be an increasingly important factor. Every indication of the multiplication of activities and lines of production in the west is welcomed by those in the older provinces who realize that true prosperity depends upon the economic soundness, stability and self-reliance of each of the various complement parts of the whole country.

# VOTE FOR Bowerman AND PROGRESS

To the Electors:  
Electoral Division of Wainwright.

Ladies and Gentlemen:—

Having been nominated to contest the Electoral Division of Wainwright in the Liberal interest in the forthcoming provincial general elections, I feel it my duty to place before you, briefly my views on some of the issues of the day. Newspaper space is necessarily limited and I cannot, therefore, do more herein than outline the general features on which I base my appeal for your support.

The public debt of the province has been unjustifiably increased beyond the bounds of reason in the past nine years—since the Greenfield and Brownlee governments took office. The introduction of sound business methods and a more increase to the public debt save for necessary public works will result in immediate saving and eventually enable the province to repay part of the load now being carried by the taxpayers.

The Supplementary Revenue Taxes should be first decreased and then abolished.

More attention should be paid to the development of district and market roads and a fixed policy of main highway construction be adopted for a term of years. Gas taxes should be set aside for road construction and only a flat rate charged for automobile licenses; this being such as well cover administration expenses in this connection.

I oppose the proposed new School Act on the ground that it is unnecessary, unduly expensive and concentrates too much power in the hands of the Minister of Education and his department.

Adequate inspection should be provided for our rural public schools and I favor an increase of government grants on the basis set by the former Liberal government.

Co-operative companies and other organizations receiving government assistance by way of loans, grants or guarantees should be subject to the strictest inspection and supervision in order to guard against further misuse of public moneys.

I strongly deprecate class government, whether such government be comprised of business men, professional men, working men or farmers.

I am strongly in favor of adequate means being provided by legislation whereby protection is given the small merchant when extending credit; in order that he may rank with larger or corporation holders of security against farmer debtors, so that the spirit of fair dealing between farmer and small merchant shall not be endangered.

The Province will be taking over shortly the administration of the Natural Resources under the generous terms granted by the Liberal government at Ottawa. While favoring government ownership of these resources and such government control as may be required to protect the interests of the people, I am not in favor of the government attempting to develop the resources at the public expense.

For the above and other reasons which will be made public during the campaign, I am soliciting the support of the electors of this division. If elected, I will be at the service of every class of citizens within the electoral division, without distinction as to race, creed or vocation.

Your Obedient Servant,  
STEPHEN R. BOWERMAN.

## Burnside Poultry Farm

THE HOME OF 6500 S. C. W. LEGHORNS  
AND IMPORTED LIGHT SUSSEX.

Booking orders for 1930 delivery of

Hatching Eggs, Pedigreed Cockerels and Cock  
Birds, Day Old Chicks, Mated Trios, Pullets,  
Breeding Stock, Custom Hatching.

Our stock is widely known for its qualities in health, vigor, production and type. Customers in the Fraser Valley and elsewhere have reported from 60 per cent. to 75 per cent, from their 1929 pullets in the best price season.

Place your order soon as already quantities of chicks and pullets have been ordered for the good dates. Write for catalogue.

A. E. POWELL

Phone 388 Hammond, B. C. Box 155

## Baby Chicks

Thousands of pure bred chicks hatching twice each week for immediate delivery. 100 per cent. live arrival guaranteed. The weather is warm, broody hens are waiting. Rush your order. Pay for the chicks when they arrive. We will ship C.O.D. subject to inspection. We guarantee our chicks.

	25	50	100
WHITE LEGHORNS	\$4.00	\$8.00	\$15.00
BARRED ROCKS	4.50	8.50	15.00
WHITE WYANDOTTES	5.00	9.50	18.00

Immediate shipment from any of our four hatcheries. Write or telephone us.

HAMBLEY ELECTRIC HATCHERIES, LTD.  
Winnipeg, Regina, Saskatoon, Calgary  
"Canada's Largest Hatcheries"

**COUNCILMAN ALBRECHT**  
The Municipal Councillor of Div. 2,  
Opens the door with welcome to you.  
If things go wrong don't be alarmed;  
See G. F. Albrecht at Pleasant View  
Farm.

Early in the morning, or late at night  
He's willing to do what he can for  
real plight.

Write him a letter if only a few lines,  
Or call him on telephone at 1609.

Address him at Sedgewick R.R. No. 2,  
Talk to him frankly as he would to  
you.

Remember from taxes your benefit  
arrives.  
So don't be neglectful, 'tis very un-  
wise.

The Councillors on duty are very  
wise men.

And to their duties very zealous at-  
tend.

On the road in each division, improve-  
ment goes on;

And through the help of the Govern-  
ment, completion is won.

The meetings are held in the hall you  
know;

At Kinsella, M. D. No. 424.

Ratepayers are invited there to attend  
And through discretion of authority,  
his rights to defend.

You will learn there about how mat-  
ters stand,

And have a better chance to talk man  
to man.

And while there I'm sure you will  
find it a pleasure.

To meet their competent, obedient,  
secretary-treasurer.

By Mrs. G. F. Albrecht.

## MOTHER SHIPTON'S PROPHECY

First published in 1488; republish-  
ed in 1641. It will be noticed that ex-  
cept for the last two lines, her pro-  
phesy has been fulfilled to the let-  
ter and the last remains to be seen.

Carriages without horses shall go.  
And accidents fill the world with woe.

Around the world thoughts will fly  
In the twinkling of an eye.

Later yet shall wonders do,  
Now strange yet shall be true.

The world upside down shall be  
And gold be found at the root of tree.

Through hills men shall ride  
And no horse or ass be at his side.

Under water men shall walk  
Shall ride, shall sleep, shall talk.

In white, in black, in green.  
In the air men shall be seen.

Iron in water shall float  
As easy as a wooden boat.

Gold shall be found  
In a land that's not now known.

Fire and water shall wonders do.  
England shall at last admit a Jew.

The world shall get rich and dirty  
And come to an end in Nineteen  
Thirty.

## VIKING

The various committees representing  
the sports for June 25th met in  
the town hall on Thursday evening  
last and reported progress. The  
baseball manager has lined up at  
least six good teams, the footballers  
will have at least three teams in the  
field and the horse race committee  
are lining up some fast poppy races.  
Other sports are also coming along,  
and we expect to have a full report  
for next week's paper of the doings  
you may expect to see.

We are informed that there will  
be some carnival attractions staged  
either under the auspices of the Elks  
or the Agricultural Society. There  
is also some prospect of having a  
real carnival company on the grounds  
but nothing definite is at hand as we  
go to press.

The day will wind up with a grand  
finale dance in the evening, with a  
five or six piece orchestra in attend-  
ance.

A good old "frog strangling" rain  
a few days before the sports will  
help a lot in making it a success.

Take the day off and spend it in  
having a good time in Viking.

The Viking ball team covered them-  
selves with glory and incidentally  
captured the majority of the sheik's  
put up for the first prize in the ball  
tournament at Vermilion last Tues-  
day, June 3rd. They played three  
games and won them all, and they  
were a bird of athletes when the  
final game ended. They first took  
the Marwayne team into camp by the  
score of 6 to 2, with Orlund pitch-  
ing. The first Clad Donald team were  
the next victims but this was a much  
harder fought game. With a three  
to one score against them, Viking  
went on a batting spree in the last  
half of the ninth, and won by the  
score of 4 to 3. In the final game  
they easily let Vermilion down to the  
tune of 12 to 2 in six innings. "Bus-  
ter" Fitzmaurice pitched against Clad  
Donald and went good. Oslund was  
effective against the other two teams.

The first half holiday of the sea-  
son was observed last Wednesday.  
People having been apprised of the  
holidays there was very little con-  
fusion in business circles, and the  
business men and clerks enjoyed  
the day outdoors.

## We Buy Your Cream for Cash

AND PAY TOP PRICES FOR IT

The farmer who hopes to make a living in wheat alone is begin-  
ning to learn the great truth that it can't be done and is turning to  
the humble cow as a means of making a living.

In a year of depression such as this, the cream cheque from us  
may help in keeping the proverbial wolf from the door. And he has  
been hanging pretty closely around the door this winter, but it is  
remarkable how when Mr. Wolf hears the sounds of milking and  
the hum of a separator, he hits back to the fastnesses of the for-  
est home in which he belongs.

Bring your cans to Simmons Bros for shipment. Cheques by  
return mail direct to you.

## VACATION TIME

go for a week, a month  
or more, but go!  
DELIGHTFUL RESORTS  
FROM COAST TO COAST  
offer ample scope for your  
favored recreations . . . .

MINAKI, MUSKOKA LAKES, 1,000 ISLANDS—These are only a few of the resorts in Ontario which is a veritable land of Heart's Desire. In this province there is a resort to suit every taste and purse.

IN ANCIENT QUEBEC—The Vacation Land of Romance, where old-world customs and landmarks still abound. Many lovely resorts on the Lower St. Lawrence, in the heart of French Canada.

THE PROVINCES BY THE SEA—Sea-side rocks and woodland playgrounds abound in the Maritime Provinces. Fishing, sailing, forest rambles make each day a joy.

CANADIAN ROCKIES—Visit the play-ground of Canada's wonderful West—a land of mystery—of towering, age-old mountain ranges. Stop over at Jasper National Park—enjoy its superb hotel service—mountain golf—hiking and mountain climbing. Jasper Park Lodge opens May 21st to September 30th.

TRIANGLE TOUR—Westward from Jasper. Take the scenic beauty of the Triangle Tour—along the mystic Skeena to Prince Rupert—by boat through the Shuswap Sea of the North Pacific to Vancouver—back through the awe-inspiring mountain scenery of the Coquihalla and Thompson Rivers.

ALASKA—Take a boat trip to Alaska, and enjoy the "Land of Mystery."

The augmented Canadian National Railway Alaska fleet offers a twice-a-week service from Vancouver to Prince Rupert. Eastward from Prince Rupert, Lake Athabasca and the White Pass and Yukon Railway, following the famous Klondike Trail of "The Millionaire's" and a constant panorama of magnificent scenery.

**OLIVER**  
FARM EQUIPMENT COMPANY

UNDER  
THE OLIVER FLAG

Low Cost Disc Plowing  
with Oliver Hart-Parr Power

With an Oliver Hart-Parr Tractor and one or more one-way disc plows, you can plow your land at lower cost than with any other equipment. Some farmers use two, or even three one-way discs behind the larger Hart-Parrs. Plowing can be done in this way at an amazingly low cost per acre.

Every dollar you can save on your plowing costs means a dollar of increase in your profits for the year. Let us tell you more about the savings you can make with the Oliver Hart-Parr.

## WORLD HAPPENINGS BRIEFLY TOLD

Lethbridge voted 705 to 47 to spend \$20,000 to improve its air harbor and provide hangar accommodation so that the city may be made a port of call on the air mail route.

The Prince of Wales soon will qualify for his air pilot's license. He handled the controls during the 200-mile air trips he took in West England without, however, making the landings.

Frankfurter Zeitung says that Germany has paid into the Bank of International Settlements a deposit of 100,000,000 marks, which she is obliged to do under the terms of the Hague agreement.

For the first time in history Scotland Yard has enrolled eight women detectives. Known as the "mystery eight," the women were chosen for their looks, education and knowledge of police work.

Amey Johnson, attractive British girl flyer, who became a national heroine on the recent completion of her flight to Australia, was awarded the honor of Commander of the British Empire in the King's birthday honors list.

The Chrysler building, in New York, tallest structure in the world, was opened formally May 28. Its furnished, rustless steel spire scrapes the clouds 1,030 feet above 42nd street and Lexington Avenue, 46 feet higher than the Eiffel Tower.

Treaty for the protection of the salmon fishery, in the Fraser River and waters adjoining British Columbia, and the State of Washington, was signed at Washington by the Canadian Minister, Hon. Vincent Massey, and the Secretary of State, Henry L. Stimson.

Taking to his parachute after being thrown from his aeroplane while passing over Kitchener, Ontario, Lieut. M. F. Slaght, a member of an 18-plane squadron from Detroit, travelling to Kingston, Ontario, had a miraculous escape from death. The machine was a total wreck.

## Ensures Quality and Length

Canadian Inspectors Keep Careful Check On Binder Twine

One of the perennial difficulties of the grain grower at harvest time comes from binder twine. The Seed Branch of the Dominion Department of Agriculture, through its inspectors, keeps a careful check not only on the quality of binder twine made in Canadian factories and also brought in from other countries, but they also take particular care to ensure that the full length of the twine is in the ball. Under the Inspection and Sales Act every ball of binder twine sold in Canada must bear a label showing the name of the maker and the number of feet per pound in the ball of twine. The usual lengths are 500, 550, 600 and 650 feet per pound, the two longer lengths being the more popular in Canada. Systematic inspection shows that infractions of the regulations are infrequent, and also ensures that quality in the product which gives confidence to the farmer using it.

People in Germany ate nearly 2,000,000 American sausages last year.

## On Your Holidays

## Railways Aided Fruit Growing

Have Made Commercial Orchardring Possible in Ontario

In Ontario, where the commercial production of all descriptions of fruit capable of cultivation in Canada has reached its highest development, apples have been grown from the middle of the eighteenth century; but commercial orcharding has developed only within the past 50 or 60 years, and was only made possible when the building of the railways permitted trees and fruit to be transported rapidly. The great winter apple districts include the border of Lake Ontario extending back 30 miles and more from the lake, the shores of Lake Huron and Georgian Bay, several miles in depth, and the southwestern part of the province.

## Producing Better Bacon

Live Hog Grading Policy Has Had Excellent Results

Canada's Live Hog Grading Policy, supervised by the Meat Inspection Service of the Dominion Live Stock Branch, has resulted in the production of increasing quantities of select bacon hogs. Fed on dairy by-products and finished on the small hard grains which make for firm high-quality product, these hogs prepared for market by government inspected packing plants under ideal conditions give the product a mild cure and deliver it to the retailer in the form for which the housewife shows a growing appreciation—better bacon.

(By Annehelle Worthington.)

2948

A sports weight linen in lovely soft brown with maize dots adopts bolero treatment that is decidedly one-sided, with sash ends joined to underarm seams and tied in bow. The skirt swings so prettily cut circular and joined to diagonal yoke top. Shirring at left front shoulder provides decorative note and fullness. Long sleeves have perforations to be made short, if desired.

Style No. 2948 makes an excellent school frock for the girl who knows smart clothes. It is very inexpensive too.

In the 8-year size, 2½ yards of 40-inch material is sufficient to copy it exactly. It is designed in sizes 6, 8, 10, 12 and 14 years.

Brown and white checked gingham with the one-sided bolero which is merely an over blouse caught in at shoulder and armhole made of plain brown pique is strikingly chic and serviceable.

Nile green cotton pique with bolero and neckline piped in yellow is very attractive.

Orchid chambray, pink shantung, wool challis in yellow-beige and brown tones, French blue dimity with white polka-dots, and red and white printed pique are effective combinations.

It is just about perfect in tomato crepe de chine with the little bolero jacket of navy blue crepe.

Printed crepe de chine in Royal blue tones with tan is very smart.

Navy blue for the girl who is fashionable for travel or school days.

Pattern price 25 cents. Be sure to fill in size of pattern. Address Pattern Department.

## HOW CANADIAN LAMBS CAN BE PRODUCED

These lambs, which won the earl of prize at the last Royal Fair, show what can be done by good breeding, feeding and proper preparation for market by docking and castrating. They are excellent for uniform conformation and right weight.

## Manitoba's Diamond Jubilee

On July Fifteenth, Provincials Will Celebrate Sixty Years Of Growth and Progress

The following speech by Premier John Bracken, President of the Provincial Committee, was broadcast on May Thirtieth:

I have been asked by the Diamond Jubilee Committee to make a statement concerning the celebration this year of Manitoba's Diamond Jubilee. In the 320 years since the first white man set eyes upon the northern part of what is now Manitoba, many milestones have marked the progress of the people of all that part of Canada lying west of Manitoba's eastern boundary line.

For my purpose tonight, let me direct your attention to four milestones that history, still unwritten, will credit to the year 1930. First, the Sixtieth Anniversary of the birth of the Province on July 15th next; second, the transfer of Manitoba's Natural Resources on July 15th, from Federal to Provincial control, after a controversy extending over 40 years; third, the recognition of Manitoba as a Maritime Province, as a result of the completion of the Hudson Bay Railway line, and plans for the construction of a harbor at Port Churchill; and fourth, the opening up on a commercial scale of the rich mining territory in the north, following the completion of railway lines into Flin Flon and Sheridan.

On July 15th, of this year, sixty years will have come and gone since the mile post of 1870. It has been a wonderful sixty years from whatever angle it is viewed—sixty years of growth and progress in agriculture, in education, in colonization, in industry and in transportation, in fact, in all activities.

The transfer of the Natural Resources places the Province in a position of equal status with the other Provinces of Confederation. On July 15th, we shall have reached full status as a province in one of the units of the Empire. It is fitting, therefore, that this historic occasion should be officially recognized with appropriate ceremony.

The completion of the railway line to Manitoba's inland sea, this year, is also significant. It is a through railway, the Hudson Bay and up the fast flowing waters of the Nelson and the Hayes River, that the first white people journeyed into this land of promise, over a hundred years ago. For many years the main artery of trade lay between the Hudson Bay and the Red River. With the opening up of transportation by rail to Port Churchill, there will be established an artery of trade replacing that early one which was so vital to the very existence of the people of the great north west.

The opening up of the vast mineral wealth in the Pre-Cambrian geologic zone of the north need only be referred to here. Within the last few years the faith and hope of the early prospectors and explorers has been realized, and this year will see for the first time in the oldest of the prairie provinces, two large mining plants turning out thousands of dollars in value per day, of copper, zinc, gold and silver.

It is in view of all these circumstances that it was decided that this historic year should not be let pass without the recognition of its significance.

Accordingly plans have been made for fitting thanksgiving services and jubilee ceremonies and exercises throughout the length and breadth of Manitoba. We have arranged to proclaim July 15th, a public holiday, and we trust, it will be suitably observed by every community and every citizen regardless of race or creed throughout.

Among other suggestions in the Organization Bulletin, are two to which attention might well be drawn.

1. That pioneers will be given due recognition in this celebration.

2. That the occasion be utilized to bring together the early history of local communities and of all different peoples throughout the Province.

It is to be desired that we should recognize in our local celebrations the services of those who left far off homes, had courage to meet the adversities of early frontier conditions, and were inspired by their faith in the great open spaces of our land to persist in the building of homes, schools, churches, transportation routes and industries such as we see about us today. I might mention in passing that the government will welcome the placing of suitable bronze tablets at these pioneers, or whatever race or creed, in the halls of the Parliament Buildings. And it is hoped that the Selkirk Association or the Old Timers Association will be the first to honour those who prior to 1870, paved the way for those who came later.

I desire also to direct attention to the urgent need for bringing into

organized form the early history of local communities and also the early history of each of the peoples who have come here from other lands. The Government is prepared to encourage such local efforts by assisting in financing the preparation of reliable histories of these communities and these early pioneers.

In agriculture it is a far cry from harvesting with sickles, then scythes, later reapers, and more recently the self-binder to the combine harvester of today, yet the brief period of 90 years compasses the wheel time between these two extremes.

Much history has been written since the time when 116,000 square miles of land were sold for 10 shillings, one and a quarter centuries ago; and the surrender of the Hudson Bay land for \$250,000, some sixty years ago, and much has been accomplished since the first export of 857 bushels of wheat; yet that was only 54 years ago.

It has been a long and tedious controversy in our political administration, from the birth as a Province with-out lands or subsidy to today, 60 years later, when the unalienated resources are coming into our possession together with an annual subsidy of over a million dollars per year, and a cash adjustment, for inalienable treatment in the past, of four and a half million dollars.

The development of transportation here runs like a fairy tale. Three hundred and twenty years ago Henry Hudson came with a sailing ship via Hudson Bay; 192 years ago La Verandry came by canoe over the water route from Montreal; 130 years ago Red River carts came into prominence; 70 years ago stern wheel steam boats were a modern means of conveyance; 52 years ago railroads made their appearance, while within the memory of the last generation the automobile has come, and now aerial transportation quickly places within our reach even the most remote districts of the province.

And who will say that the history of the next 60 years will not record even greater progress than the last 60 years? Will it not be an interesting fact of economic history that, during the last 5 years we have practically discovered four fifths of this Province; that during the same period we have opened up Northern Manitoba by railway development and by aerial transportation; that the same 5 years will be looked upon as a period of the greatest expansion in industry and that the rehabilitation of our agriculture, after two generations of constant cropping, was commenced with renewed vigor during this period.

Steam at high pressure has been successfully used to combat fires in oil wells.

It is human nature to believe that those who disagree with us are in the wrong.

## Wool Market Wanted

Canadian Producers Would Like To Sell At Home

Canadian wool growers, who produce slightly over 21,000,000 pounds of wool annually, are not as well situated as to markets as are the growers of other live stock products. In spite of the fact that Canadian wool is the equal of that grown anywhere, much of our product must find a market in other countries, while goods containing virgin wool and goods into which has been woven a large percentage of shoddy are purchased and used freely by Canadian people.

It is estimated that 70,000,000 pounds of wool are required annually to meet the needs of Canadian people. However, we are forced to seek a market in United States and Great Britain for our raw wool, while we freely admit wool and yarns from other countries.

There has grown up the custom in this land of favoring the imported product, believing that it has some virtue not possessed by Canadian-made goods. This custom is costing not only wool growers and fabric makers, but many other manufacturers a great deal of money.

No duty has been collected on wool coming into Canada for many years, and now weaving yarns are admitted free. As a result of this many mills have ceased to spin and that means that even when fabrics are woven in Canada, much of the wool used has been grown on the backs of sheep in countries other than Canada.

This is a problem that requires the earnest attention of sheep raisers and farmers generally, for the sheep industry renders a service to agriculture over and above that represented by 21,000,000 pounds of wool at 10 cents per pound—Farmer's Advocate.

## Advice For Livestock Producers

Should Exercise Caution With Respect To Movement To Slaughter

The Dominion Live Stock Branch continues its advice to the producer to exercise the greatest caution with respect to the movement of livestock to slaughter. The reasons for this are: Consumer purchasing power shows a decline, the expert market is comparatively narrow, demand for beef is now on a hand-to-mouth basis, and cold storage supplies are particularly heavy. At the present time 12 per cent. more beef is in cold storage than for the same time last year, the stock of fresh frozen beef is 25 per cent. heavier, and is 76 per cent. heavier, and lamb and mutton in cold storage shows an increase of 84 per cent. over the corresponding period last year.

When this country was first discovered it was a howling wilderness, and since then it has progressed to be a howling civilization.

The Jerusalem artichoke was one of the vegetables grown by the Indians.

Finland had a fleet of eight gunboats to stop liquor smuggling.

**PIMPLES**  
Actually See Them Vanish

Pimples ended so quick by "Sootha". Many say it is actually see them dry up. Many say overnight. Get "Sootha". Soft, from straight today. Rest, skin beauty tomorrow morning.

## May Reclaim the Sahara

French Hope To Make Desert Blossom As the Rose

The Sahara desert will be made to blossom as the rose one of these days, J. H. Richard believes, and then France will be one of the great agricultural nations of the world.

Richard, former French Minister of Agriculture, has arrived in New York to study machinery used in reclaiming American deserts.

He hopes some means will be perfected for using radio to detect underground strata of water. Several geologists, he said, agree that vast layers of water are beneath the Sahara and at El Golea, in South Algeria, underground water has been pumped to the surface and used to grow rose bushes ten feet high.

## Proved It For Himself

Visitor Says Legend About London Bridge Is True

For three consecutive weeks, a visitor in London, England, has amused himself by testing the truth of the old saying that no one can cross London Bridge without seeing a white horse. "Morning and evening daily I have crossed the bridge," he said, "and sure enough, each time I have seen at least one white horse—except, to be honest, when I have forgotten to notice." The saying originated, of course, before transport became mechanized, but it is curious that its application should yet survive. Much of London Bridge traffic is still horse-drawn.

## Can Control Wireless Station

In An Emergency the League Of Nations Could Broadcast To World

The League of Nations and the Swiss Government have reached an agreement whereby, the League, in times of emergency, will have complete control of a wireless station for communication to all parts of the world.

Sir Eric Drummond, in behalf of the League, and Joseph Motta, for Switzerland, signed the convention providing for construction of this station, which in normal times will be under the direction of the Radio Swiss Company.

## Surgery In Motion Pictures

Motion pictures are being introduced into the University of Berlin, Germany, to teach surgery. During an operation in the clinic a camera focused on the operating table makes a film record of every step in the surgeon's work. Later the film is shown in the classroom and the operation explained.

The principal street of a town is now called the Main street.

## Make Your Windows Pay

Invest in WINDOLITE Windows and you will be repaid a hundredfold in the health of your Poultry and Live Stock.

**WINDOLITE**

THE ORIGINAL GLASS SUBSTITUTE  
MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but

allows the full sunlight to enter, including the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass.

Canadian breeders of poultry and live stock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and will thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

### CHAPTER XV—Continued.

"Oh, no, she doesn't!" contradicted Grandma, "not if she finds the right man, anyway. School teaching's all very well for a while; but I guess the girls are just the same inside as they were in my day, except maybe they're more sensible. A girl wants her own man and her own home and her own babies, whether she wears her skirts to her knees or trailing in the dust as they did when I was your age. I saw a letter in the Boston paper protesting about 'this leg show,' as the woman called it. I made me sort of mad. I guess she was over seventy, or else terribly behind the times. I'm too old to make changes myself, but it would be a dull world if nobody made 'em; and for my part I can't see what's wrong with a pair of legs. Even Mrs. Merry's had her best dress shortened, though being the minister's wife I expect some folks criticize her. If you're not too tired, child, I think you'd better make something good for supper. The doctor's been scurrying 'round all day, and is liable to have an appetite. Here he comes now."

### CHAPTER XVI.

On a bright afternoon in late October, Charmian, who had stayed after school to correct some papers, was just starting on her homeward walk when a familiar car approached and drew up beside her.

"Ride?" Jim asked, looking at her. "You don't seem to be going my way," she answered.

"What of it? I'll have you back in time to get your supper, and a breath of air will do you good. Hop in."

Charmian obeyed.

"I hope Grandma won't think I'm lost or kidnapped," she said uneasily, but in a moment Jim saw that she had relaxed, and guessed that his timely invitation was a relief.

"Tired?" he asked, as they moved away from the old brick schoolhouse and headed toward Eastboro.

"A little," the girl admitted. "It's been a trying day. I suppose such days come to all schoolma'ams, and I'm no exception."

"What was your special brand of trouble this time?"

Charmian looked up with a quick smile.

"Deacon Purdie."

"That old mud turtle! What business did he have with you?"

"Have you forgotten that he is now the doting father of six?" smiled Charmian. "To make a long story short, Jim, Luella's oldest, who's a smart Aleck if there ever was one, was too impertinent yesterday to be endured. I sent him home

**SORE CORNS**  
Removed by  
**PUTNAM'S**  
Corn Extractor

W. N. U. 1841

room; and Grandma likes to talk with him."

"A fine chance she has when you and he are watching the moon rise from Wade's Hill," Jim countered with good-natured sarcasm.

"Whoever on this earth told you I climbed Wade's Hill with him?"

Charmian was so astonished that Jim smiled at her reply. "It may have been the whip-poor-will that was singing its head off somewhere in the vicinity that evening; and then again, it may have been Lizzie Baker. There's precious little you do, my friend, that Lizzie doesn't broadcast to—well, my mother, for instance. She hasn't forgiven me, I understand, for taking a detour from the straight and narrow path that leads to your front door; and in consequence . . ."

As he hesitated, Charmian gave way to a peal of laughter in which he joined.

"I wonder why it is that our elders take our slights so much more deeply to heart than we do ourselves," said the girl at last. "Miss Lizzie thinks she owns a piece of me, you know. In her opinion every man in Wickfield should be in love with me."

"She's not far off there," responded Jim gallantly. "But as for slights—why, I—I never . . ."

He was suddenly inarticulate, and Charmian stretched out an impulsive hand, laying it on one of those that gripped the steering wheel; which unexpected contact caused the car to swerve.

"You don't owe me any explanation, Jimmy."

"I think I do," he answered as she removed her hand, "but not on the subject of Clara Darling."

"About what, then?" asked Charmian in surprise.

They had reached Eastboro, and Jim answered, as he slowed up before the bank: "I'll tell you some day," but before she could ask more he had vanished within a side door that gave access to the building after banking hours.

On the way home, however, he skillfully managed to keep the conversation away from his own problems and hers. He told of happenings at the bank that made her laugh—he asked questions about trivial nothing that kept her mind from her encounter with Deacon Purdie; and when he dropped her before the old Davis house at half-past five, Charmian was a different girl from the discouraged teacher he had picked up an hour or so before.

"You're a good doctor, Jim," she said gratefully as she left him.

"Seems as if you'd been gone a week," commented Grandma, to whom Jim waved as he rode away. "Not but what it's been sort of an exciting day, though. A man came through on his way to the White Mountains riding one of those infernal machines—a motorcycle, I mean. I heard him coming from clear down the street so I was watching and saw everything plain as day. It's a wonder he hadn't killed a dozen children, going such a rate; and just as he got here Lizzie Baker's cat ran across the road, chasing the Garfield's Plymouth Rock rooster that had got loose somehow. It was a bad combination, I'll admit that. You know how hens behave when they cross a street, and I can't see that roosters act much different if they do belong to the male sex. Anyhow, that man on the motorcycle turned

## Before Her Baby Came

"I have used several bottles of Lydia E. Pinkham's Vegetable Compound and find it helps me wonderfully, especially before childbirth. I have five lovely children. After my last baby came I had a miserable pain in my right side so I bought another bottle of the Compound and I feel fine now. I work outside during the fruit season in addition to my housework."—Mrs. Charles Slingerland, R.R. #4, St. Catharines, Ontario.

### Planning Bigger Airships

Could Be Constructed To Carry Paying Loads Says British Designer

Critics of the new airships were answered by Lieut.-Col. V. C. Richmond, the designer, and Major G. H. Scott, the navigator of R-101. They were the guests of the City Livery Club at a luncheon in the Carpenter's Hall, London, England.

Colonel Richmond said that he could see no reason technically why airships much larger than those so far built should not be constructed to stand the stress of weather and to carry useful and paying loads.

The British Empire was, he thought, peculiarly suited to airship transport because of the long distances that had to be traversed over land and sea.

Economics, just as much a question of research as the building of the ships, was to be the next part of their program. "Do not ask me what will be the fare to India. You R-100 has well have asked George Stephenson what would be the fare from Stockton to Darlington."

"Once speed has been achieved in conjunction with reasonable comfort, airship travel will become a necessity, and it is impossible to forecast what people will pay for a necessity. It is equally impossible to pass an estimate on the quantity and flow of passengers. The factor of speed will create a demand."

None of the calamities predicted for the two new airships had, he said, come true. Both R-101 and R-100 had flown the trials in some of the worst weather ever recorded for October and November. "Finally, the Germans have now decided to copy us instead of our copying them."

A new section, Colonel Richmond also said, was being put into R-101 to overcome the unexpectedly great weight of the engines and other components, and after research would be conducted into the problem of long journeys across the sea.

Major Scott said it was quite wrong to say that hundreds of men were required to handle these ships. R-100 and R-101 had never had more than fourteen men to bring them to the mooring mast. In spite of all criticism, airship development had been a success, and what was now wanted was continuity of development. "We have to show that these ships are reliable and can run to schedule."

### Silk From Carbon Dioxide

From carbon dioxide in the air eventually will be obtained wood pulp, artificial silk, paper, explosives, and other material, said Dr. Herbert Levinstein, president of the Society of Chemical Industry, in an address to the British Institution of Chemical Engineers. Everywhere in the atmosphere and water vapour, he said, the same fundamental chemical constituent is found.

Douglas' Egyptian Liniment is especially recommended for spider, or infection of cow's teat. Invaluable also in cases of spavins, curbs and splints.

### Would Solve Some Problems

The perfect bridge hand is said to contain thirteen cards of one suit. Now if someone will work out a perfect mill hand, a perfect deck hand on a perfect harvest hand, some problems may be solved.

Customer—"I'd like a nice birthday present for my son. He likes something to blow." Helpful Merchant—"How about a good handkerchief?"

Mina's for Insect Bites.

### Inland Fisheries Show Gain In Production

Marketed Value Last Year In Manitoba Over Two Million Dollars

While agriculture, the basic industry of Manitoba, together with manufacturing, mining and other industries has advanced substantially in the province in recent years, the production from the inland fisheries has probably shown the greatest gain. In the past five years the fisheries production has increased more than 1700 per cent. In 1924 the market value of the fish caught in Lake Winnipeg, Manitoba, Winnipegosis and other lakes was \$1,232,000, while last year, it was \$2,634,000. In 1929 the commercial fishermen of the province caught 23,000,000 pounds of fish, a record for Manitoba, with a marketed value of \$2,634,000.

### IS BABY TEETHING?

Teething time is a time of worry to most mothers. The baby is nervous; fretful; feverish. His little gums are swollen and sore; diarrhoea, constipation, colic and sometimes convulsions set in—neither baby nor mother can sleep.

These troubles can be quickly banished, however, through the use of Baby's Own Tablets concerning which Mrs. Louis Grubb, Teeswater, Ont., says:—"I have used the Tablets for all my babies while teething and have found them a splendid medicine."

Baby's Own Tablets are sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Bananas Grown In England

An exhibit which attracted considerable comment at the Royal Horticultural Society's Fruit Show, in London, England, was a bunch of bananas weighing nearly half a cwt., which had been grown in England. This is the first time for 25 years that bananas grown in this country have been exhibited at one of the society's shows.

### New Storage Elevator

It is reported from Ottawa that a 2,000,000 bushels interior storage elevator is to be built at Lethbridge by the Federal Government. This year, supplementing prairie wheat storage facilities now existing in similar elevators at Saskatoon, Moose Jaw, Calgary and Edmonton.

A safe and sure medicine for a child troubled with worms is Mother Graves' Worm Expeller.

### Noisy Nuisances

A Massachusetts court has ruled that airplanes flying less than 100 feet from the ground commit a trespass on private air right. But what we are more interested in discovering is how far our horizontal air rights extend, as against the neighborly radio?

## Gyproc Gives PERMANENT PROTECTION

MADE FROM Gypsum rock, Gyproc Wallboard does not burn. And this year it has a new smooth Ivory finish that needs no decoration (when panelled) although you can tint, paper or plaster it if you wish.

Structurally strong, inexpensive, easily and quickly put up, Gyproc Wallboard gives permanent fire protection to the walls, ceilings and partitions of your home.

Your dealer's name is listed below. Ask him for complete details of this pioneer Canadian fire-safe Gypsum board or write for free interesting book, "Building and Remodelling with Gyproc." GYPSUM, LIME AND ALABASTINE, CANADA, LIMITED

### NOTICE TO VOTERS

#### The Voter Must Not:

- Use the X mark.
- Place more than one choice in the white space containing the name of any candidate.
- Make the same choice for more than one candidate.
- Make any mark on the ballot not authorized by these directions.

#### The Voter Shall:

Go into the booth and with the pencil provided place the figure one (1) within the white space containing the name of the candidate who is his first choice. He may place the figure (2) within the white space containing the name of the candidate he would prefer if the candidate who is his first choice cannot be elected with it. He may then place the figure (3) within the white space containing the name of the candidate he would prefer if neither his first nor his second choice can be elected with it, and so on, marking as many choices as there are candidates.

The voter may plump for one candidate alone, using the figure one (1), without spoiling his ballot, but is urged to vote the full extent of his choices, as it is only by marking the full number of choices that the voter obtains the full benefit of the ballot.

JOHN D. HUNT,  
Clerk of Executive Council

## Irma Sports June 18th Postponed

### Main Street

Mr. Richard Larson was in Edmon-  
ton this week.

Born to Mr. and Mrs. W. Bacon, a  
daughter, June 4th.

Mr. Jack Fletcher and Pries Jones  
left Tuesday night to attend Mar-  
tine Grand Lodge at Jasper Park.

Mr. W. Masson, motored to the  
City last week end to see the Glas-  
gow Rangers playing football.

Born to Mr. and Mrs. Earl Bronson  
at Hardisty hospital, Monday, June  
9th, a daughter.

Mr. D. Sheppard returned Satur-  
day after spending his vacation at his  
home at Rumsey.

Mr. and Mrs. P. J. Hardy and Mr.  
and Mrs. C. T. Hill motored to Medi-  
cine Hat, Wednesday to visit rela-  
tives.

Friday night while playing ball  
with the Irma team against Wain-  
wright, Mr. E. Keely, had the third  
finger of his right hand broken.

Saturday, Dr. Greenberg found it  
necessary to take the infant son of  
Mr. and Mrs. Jas. Elliott, to Edmon-  
ton for special treatment. The baby  
was operated on, on Monday and is  
doing nicely.

Last Sunday several carloads of Ir-  
ma folks motored to the different  
lakes, some to Hardisty and others to  
Clear Lake and Mott Lake east of  
Wainwright and in the Buffalo Park.  
The water in all of these lakes is re-  
ported in fine shape for bathing.

Tuesday night the Irma district  
was visited with a four hour rain,  
and reports of from three fourths to  
one and a quarter inches of rainfall  
have been received. This rain just  
came in an opportune time as some  
of the earlier sown grain was begin-  
ning to show the need of moisture.  
Travellers from other parts of the  
province report crops looking better  
in the Irma district than most of the  
area north of Calgary.

### Edmonton Exhibition Bigger and Better For July 14 - 19th

The Edmonton Exhibition is annu-  
ally becoming more attractive, as the  
Directors adopt various features of  
special interest to those living in  
Northern Alberta.

In lieu of the pageant, this year,  
the feature attraction will be Thaviu's  
Revue — an artistic musical and  
dancing production which will go into  
the moving pictures at the close of  
the Western Canada Fair Circuit.  
Poodles Hannaford's horse act is one  
which the fair have been endeavoring  
to secure for some years, and is  
the most famous horse act on the  
continent. Those who have lived in  
Alberta for many years will be inter-  
ested in the dancing of the group of  
ten halfbreeds from St. Paul Des  
Metis, who were the star dancers at  
the recent C.P.R. Festival. A new  
midway will please those who like to  
mix a little fun with their recreation;  
the Morris & Castle Shows will play  
the midway for the first time, and  
one of their stella shows is a real,  
embalmed whale.

But of course the Edmonton Exhi-  
bition is first and last an agricultural  
exhibition, and a \$50,000.00 prize  
list should attract a splendid entry  
list. In addition to the classes for  
live stock, a number of special classes  
have been made for farm women,  
and for ladies over 70 years of age;  
the prize money for bread making  
and similar accomplishments is ex-  
tremely attractive.

The entries close on June 28th, and  
the prize lists are free to those ask-  
ing for them.

### MILLION - BARREL OIL PRODUCTION FOR ALBERTA

The following statement on oil and  
gas developments in Western Canada  
during 1929 was issued by Hon.  
Charles Stewart, Minister of the In-  
terior:—

"The steady progress which charac-  
terized the previous four years in the  
prospecting, development, and pro-  
duction of the petroleum and natural  
gas resources of Western Canada  
showed a rapid increase during 1929.  
The interest already stimulated by  
the notable results recorded in 1928  
only needed the additional fillip from  
the completion of highly productive  
wells by the Home Oil Company, situ-  
ated over three miles southeast of  
Royalty No. 4 in the Turner Valley,  
Alberta, to draw the attention of the  
whole oil world to the potentialities  
of that area. This started an unpre-  
cedented drilling activity on the Tur-  
ner Valley and other structures, al-  
ready productive of results, the bulk  
of which remains for the near future.  
"Not only did structures immedi-  
ately adjacent to that of Turner Val-  
ley become the centres of drilling ac-  
tivity but energetic prospecting and  
drilling has extended over a consid-  
erable portion of Alberta, with the re-  
sult that at Ribstone, Oyen, Skiff,  
and Coats, good strikes of heavy  
crude oil have been recorded

## Irma Meat Market

and Veal**

CURED MEATS OF ALL KINDS

SPECIAL —  
6 lbs. Can. Corn Beef for \$1.50

#### NOTICE

We are Agents for Alberta Pool Cream. All Cream  
kept in refrigerator until train time.

**A. E. FOXWELL**

Hogs taken in any day.

Irma

Jarrow

## Fined \$25.

A receipt from the Police Court Clerk is  
not nearly as attractive as one from a  
Brake Service Station who has tested  
and re-lined your brakes.

When you pay a fine — it's a total loss.  
Paying for a genuine Raybestos Brake  
Lining job saves money, and the know-  
ledge that you can stop safely, quickly  
and surely in any emergency saves your  
peace of mind.

## JARROW NEWS

### SUCCESSFUL SPORTS DAY AT JARROW

Large Crowd Witnesses Annual Meet  
Many Good Events

Jarrow, June 9th.—Jarrow's An-  
nual Sports Day was an unqualified  
success. As usual there was a large  
crowd in attendance, some twelve  
hundred people gathered to enjoy the  
day and, coming from far and wide,  
they all voiced their appreciation,  
which is a tribute to those who work-  
ed so hard to make the day a success.

The bucking contest under the di-  
rection of R. Whitford was a decided  
success and some real good riding  
was done by the contestants.

The slow car race was not so good  
as it was difficult to obtain entrants  
for this event. Only two cars enter-  
ed the race. The horse races were  
good considering the condition of the  
road where the races were held and  
no serious accidents resulted from  
this event.

The major event of the day was the  
baseball tournament. Two games  
were played between Jarrow and  
Wainwright, total runs to count for  
first money. In the first game Wain-  
wright won by a score of 3 to 1 and inches long.

the second game was more success-  
ful the local team, Wainwright being  
unable to hold them down. The lo-  
cal boys won the series by 5 runs,  
thereby retaining \$30. of the \$50.  
prize.

The girls' softball game was great-  
ly enjoyed by the crowd. The local  
girls were rather badly beaten by the  
Irma team, but considering the prac-  
tice that the girls have had at this  
game, they did very well indeed.  
With more practice the girls will be  
able to acquit themselves well at this  
game.

#### A Few Accidents

There were two or three accidents  
which somewhat marred the enjoy-  
ment of the day. One man who got  
in the way of a swinging bat re-  
ceived a painful wound above the  
eye. C. Jenkins had his finger knock-  
ed out of joint during the ball game,  
though he continued the game to the  
end. A real serious accident occurred  
during the girls' softball game when  
a bat thrown high in the air, and sail-  
ing over the heads of those nearest  
the catcher's box, hit Mrs. W. Morgan  
in the face, breaking her nose and  
cutting a gash in her face some three  
inches long.
